

NEO 2.0

NG12

NG12 is the first acrylic antenna to be released in the NEO 2.0 range. This new range has been designed to evolve and adapt to our customer needs, combining high detection performance with the widest aisle in the RF EAS market.

Acrylic antennas are becoming increasingly popular, but none have the detection ability mixed with the elegance of the NG12 antenna. It has a slim side profile with strong deterrence and wireless connectivity.

STANDARD FEATURES

ELEGANT ACRYLIC DESIGN

Designed to be aesthetically pleasing while none losing its high performance.

CUSTOMIZABLE

Color, branding, & alarm lights that best suit your store design.

CLASS LEADING DETECTION PERFORMANCE

A revolutionary technology that drives exceptional detection performance and wider aisle width.

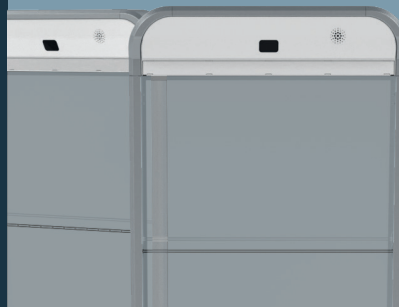

GET CONNECTED!

Provides remote access to the devices from anywhere, boosting your maintenance service.

Customize it with **your logo** or branding etched on the acrylic.

Disruption at point of installation is minimized by **wireless connectivity**.
